

ANTI-PROFITEERING LAW

Attorney General Hopkins Urges Legislature to Take Action.

Declaring that the present anti-trust laws of the state are inadequate to prevent profiteering, Richard J. Hopkins, attorney general, announced today that he will urge the next legislature to enact an "anti-profiteering" law. The proposed act would make it unlawful to hoard, monopolize, restrict the supply of, or exact an "excessive or unreasonable" price for necessities—food, clothing and fuel. Both a fine and jail sentence are made the penalty for violation.

Under the present law it is necessary to prove "combination" in restraint of trade which Hopkins asserts is difficult even though the circumstantial evidence may exist.

The law makes it the duty of the attorney general, or the county attorney when ordered by the attorney general, to enforce the law by injunction or other proceedings. Those violating the provisions of the act "shall be deemed guilty of a misdemeanor and fined not less than \$100 nor more than \$1,000 and confined in jail not less than thirty days nor more than six months and shall forfeit not less than \$100 for each day such violation may continue." Furthermore, violators may be denied the right of doing business within the state.

"So many complaints of unreasonable and excessive prices charged for the common necessities of life came to my department previous to the special session of the legislature of 1920 that it seemed advisable to present to the legislature at that time a bill designed to prevent profiteering," says Hopkins in a letter to legislators urging the bill. "My department therefore drafted such a measure which was duly introduced at the special session. It was carefully considered by the judiciary committee of the senate and recommended for passage, but because of the lack of time among other reasons, the full senate and house could not give it the consideration to which it was entitled and no legislation resulted."

"Since that time complaints of alleged profiteering and price-gouging continue to come to this department. In my biennial report to the governor I have called attention to the inadequacy of the present anti-trust laws of the state to prevent profiteering."

EDUCATORS TO MEET HERE

Annual Session of Teachers' Council Will Be Held January 29-31.

The third annual session of the council of administration of the Kansas State Teachers' association will be held in Topeka on January 29 and 31. Some 700 educators from this state will be present, it is expected, and there will be a large number of speakers from outside the state as well.

The program of the session calls for sectional meetings of the college, city superintendents, county superintendents, high school principals, grade school principals, boards of education, and other branches of the profession, at various locations, with two general sessions, the first of which is to be held in the assembly hall of the Memorial building.

Legislative matters and others means for the promotion of unity and progress in the educational work of the state, will be considered at the general sessions, and the peculiar problems of the various sections will be

discussed in their round table meetings.

Delegates are to be elected at the first general session, which will be held on the evening of Thursday, January 29, to the National Education association.

F. L. Pinet, secretary of the Kansas State Teachers' association, is in charge of the arrangements for the council session.

NOW SAY "ONE MAN JOB."

Wichita Mail Robbery Attempt Involved No Accomplices, Say Police.

Wichita, Kan., Dec. 17.—The unsuccessful attempt to steal a sack containing \$47,000 worth of registered mail at the union station Tuesday night has assumed the aspect of a "one man" job, according to federal authorities.

The one man is Fred J. Dearmond, age 39, who lies in the hospital here with part of a heavy charge from a "sawed off" shotgun in his hip.

An alleged accomplice, William Hewes, arrested the night of the attempted theft, was released last night by William Allison, postoffice inspector. The release of Mrs. Dearmond, wife of the wounded man, was predicted today by authorities.

BURGLARS GET AWAY WITH \$29.

Home of G. A. Engstrom, 520 Garfield Ave., Entered Thursday Night.

Burglars who entered the home of G. A. Engstrom, 520 Garfield avenue, Thursday night, got away with \$29 in cash, according to reports received by the police.

Active Middle Age May Beat Youth

Medical Science proves blood rich in iron to be a secret of great strength, energy and endurance.

You may be a better man at 50 than the husky stripling of 25 if you take care of yourself and KEEP YOUR BLOOD FILLED WITH IRON.

In an account of a severe mountain climbing test, a New York newspaper states that 20 percent of those who accomplished the feat were 44 years and over.

Prize-fighters, wrestlers and athletes have learned the value of plenty of plain coarse foods in their training as such a diet helps supply their blood with iron. THERE ARE 30,000,000,000,000 RED BLOOD CORPUSCLES IN YOUR BLOOD AND EACH ONE MUST HAVE IRON.

Nature put plenty of iron in the husks of grains and the skin and peels of vegetables and fruits to enrich your blood, but modern methods of cooking throw all these things away—hence the alarming increase in recent years in Anemia—iron starvation of the blood, with all its attendant ills. When you get up yourself nervous, irritable and easily upset; when you can no longer do your day's work without being all fagged out at night; when your digestion is poor or you have pain across the back and your face looks pale and drawn, do not wait until you go all to pieces and collapse in a state of nervous prostration, or until in your weakened condition you contract some serious disease, but consult your family physician and have him take a specimen of your blood and make a "blood count" of your red blood corpuscles, or test the iron-power of your blood yourself by adding plenty

of spinach, carrots, baked apples or other iron-containing fruits and vegetables to your daily food and take organic iron, like Nuxated Iron with them for a while and see how much your condition improves. Thousands of people have surprisingly increased their strength, energy and endurance in two weeks time by this simple experiment. But in making this test be sure that the iron you take is organic iron and not metallic iron or mineral iron which people usually take. Organic iron is like the iron in your blood and like the iron in spinach, lentils and apples, while metallic iron is iron just as it comes from the action of strong acids on small pieces of iron. Organic iron may be had from your druggist under the name of NUXATED IRON. Your money will be refunded by the manufacturer if you do not obtain perfectly satisfactory results. At all druggists.

NUXATED IRON ENRICHES THE BLOOD—GIVES YOU NEW STRENGTH AND ENERGY

Renews Strength!

Where there is need for a building-up tonic after prostrating illness, **SCOTT'S EMULSION** taken regularly, usually spells renewed strength and vigor.
